

Why MTB?

■ *Providing the best value for your investment*

Customers choose MTB because they get what they want, and more than they expected, of their equipment and their supplier.

1 : RELIABILITY

Reliable uptime of equipment to meet production demands, and responsive service when needed.

2 : QUALITY

Manufactured with meticulous details observed for durability.

3 : INNOVATION

Latest technology available with proven principles applied to ensure performance.

4 : ACCURACY

Technically-skilled and accurate designs create precision cutting and excellent gear geometry.

5 : VALUE

MTB offers the best value for your investment. The price may be a little higher up front, but the benefits of the craftsmanship reduce and often eliminate short term service, modifications and loss of production.
